TOYOTA WARRANTY POLICY

A summary of Toyota warranty policy is provided to you as a courtesy. The Owner's Warranty Information Booklet may be found the vehicle.

Toyota Motor Sales, U.S.A. will repair or replace, at its option, any factory-installed part that is defective in materials or workmanship under normal use. Warranty repairs will be made free of charge for parts and labor. Any needed part replacements will be made using new or remanufactured parts. *The warranty period begins on the vehicle’s in-service date, which is the first date the vehicle is either delivered to an ultimate purchaser, leased, or used as a company car or demonstrator.

COMPREHENSIVE WARRANTY

Length of Coverage

- The Toyota comprehensive warranty is in effect for 36 months or 36,000 miles, whichever occurs first, from the vehicle’s in-service date.

What Is Covered

- Any repair or replacement that becomes necessary due to a defect in materials or workmanship is warrantable with the exception of the items listed under "What Is Not Covered."
- The comprehensive warranty includes coverage of service adjustments for 36 months or 36,000 miles from the vehicle’s in-service date, whichever occurs first, except for wheel balancing and wheel alignments, which are limited to one repair during the first 12 months or 20,000 miles, whichever occurs first.
What Is Not Covered

- Parts associated with vehicle maintenance services are not warranted beyond 12 months or 12,500 miles from the vehicle's in-service date or the first applicable scheduled maintenance, whichever is earlier.
- Items subject to normal wear and tear, noise, vibration, or deterioration are not warranted.
- Abnormal noise and odor caused by foreign substances are not warranted.
- Tires are warranted independently by the individual tire manufacturer.
- This warranty is subject to those limitations and exclusions as listed in policy no. 4.17, What is Not Covered by the Toyota New Vehicle Limited Warranty, in the Toyota Warranty Policy & Procedures Manual.

POWERTRAIN WARRANTY

Length of Coverage

- The Toyota powertrain warranty is in effect for 5 years or 60,000 miles, whichever occurs first, from the vehicle's in-service date.

What Is Covered

- Any repair or replacement to engine, transmission / transaxle, front wheel drive, rear wheel drive, or restraint system components as listed in the powertrain components list in policy no. 4.4 in the Toyota Warranty Policy & Procedures Manual that becomes necessary due to a defect in materials or workmanship is warrantable with the exception of the items listed under "What Is Not Covered."

*For vehicles sold and registered in the state of Kansas, the warranty for seat belts and related components (not including airbags) is 10 years, unlimited mileage.

What Is Not Covered

- Items subject to normal wear and tear, noise, vibration, or deterioration are not warranted.
- Parts associated with vehicle maintenance services are not warranted beyond 12 months or 12,500 miles from the vehicle's in-service date or the first applicable scheduled maintenance, whichever is earlier.
- Brakes, steering, and suspension items are not warranted beyond the applicable comprehensive warranty coverage.
- This warranty is subject to those limitations and exclusions as listed in policy no. 4.17, What is Not Covered by the Toyota New Vehicle Limited Warranty, in the Toyota Warranty Policy & Procedures Manual.

HYBRID VEHICLE SYSTEM

Length of Coverage

- Hybrid System Warranty coverage is for eight years or 100,000 miles, whichever occurs first, and covers the following components: Hybrid control module, Hybrid battery control module, Hybrid battery and inverter with converter.
CORROSION PERFORATION WARRANTY

Length of Coverage

• The Toyota corrosion perforation warranty coverage is in effect for 5 years from the vehicle's in-service date, regardless of mileage.

What Is Covered

• Any repair or replacement to the body panels (or sheet metal) of the vehicle that are perforated as a result of corrosion and where such damage is not attributable to non-warrantable sources such as, but not limited to, accident damage, aftermarket-installed accessories, or unrepai red surface corrosion is warranted.

What Is Not Covered

• Repairs to in-stock units where corrosion perforation is due to poor dealer care of stock are not warranted.
• Corrosion other than perforation is not warranted beyond the applicable comprehensive warranty period of 36 months from the vehicle's in-service date or 36,000 miles, whichever occurs first.
• Corrosion perforation due to external forces or damages caused by stones, salt, gravel, accident or other forms of impact, industrial fallout or pollution, or previous repair is not warranted.
• Corrosion perforation attributable to dealer or distributor-installed accessories or failure to use recommended rust preventative during the installation of accessories is not warranted. The dealer or distributor installing the accessory shall be responsible for the cost of these repairs.
• Corrosion perforation of exhaust system components is not warranted beyond the comprehensive warranty period of 36 months from the vehicle's in-service date or 36,000 miles, whichever occurs first.
• External surface rust left unrepaired and perforation that originated due to neglect of vehicle care are not warranted.
• This warranty is subject to those limitations and exclusions as listed in policy no. 4.17, What is Not Covered by the Toyota New Vehicle Limited Warranty, in the Toyota Warranty Policy & Procedures Manual.
• Note: Application of additional rust-inhibiting materials is not required in order to keep Toyota's corrosion perforation warranty in effect.

EMISSION WARRANTIES

Federal Emission Defect Warranty
This warranty provides that any repair, replacement, or adjustment to emission components that becomes necessary due to a defect in materials or workmanship is covered for a period of 3 years or 36,000 miles from the vehicle's in-service date, whichever occurs first. Additionally, this warranty is in effect for 8 years or 80,000 miles from the vehicle's in-service date, whichever occurs first, with regard to specified major emission control components.

Federal Emission Performance Warranty
Some states and local jurisdictions have established periodic vehicle inspection and maintenance (I/M) programs to encourage proper vehicle maintenance. If an EPA-approved I/M program is in force in the area, the vehicle is eligible for emission performance warranty coverage.

Toyota will make any repair, replacement, or adjustment necessary to bring the vehicle back into compliance for a period of 24 months or 24,000 miles from the vehicle's in-service date, whichever occurs first. Additionally, this warranty is in effect for 8 years or 80,000 miles from the vehicle's in-service date, whichever occurs first, with regard to specified major emission control components. Additional details about the Federal emission performance warranty can be found in policy 4.6 of the Toyota Warranty Policy & Procedures Manual.

NOTE: Vehicles equipped with a California-Certified Emission Control System that are registered and operated in California or any state that adopts California emission warranty provisions are also covered by the California emission warranty.
Federal Emission Components
Components covered under this emission warranty are model-specific and change from year to year based on repair cost. For a list of specific components, refer to the applicable Owner's Warranty Information Booklet.

Other Owner Benefits
Most Toyota vehicles are also covered by the Toyota Transportation Assistance Policy.

The Toyota Transportation Assistance Policy (TTAP) provides a loaner car or alternative transportation (i.e., bus fare, cab fare) to the vehicle owner (excluding fleet agency-owned vehicles) if a warrantable condition requires the customer's vehicle to be kept overnight at the dealership for one or more of the following reasons:

- The required warranty repairs will take longer than one day to complete.
- The warrantable condition requires extensive diagnosis.
- The parts required for the warrantable condition are not available, and the vehicle is inoperative or unsafe to operate.
