2021 Car Sales by Country

R34

China was the #1 car sales country in 2021, a rank it has held for over ten years. Total sales in China were up 7%, boosted by electric vehicle sales doubling since last year.

Indonesia posted the greatest gains, up 67% in sales volume, climbing past 4 countries to rank #15 on the list.

India is the country with the greatest growth potential, up 27% in 2021, and predicted to overtake Japan for the #3 spot by 2025.
